

# Honorio Alberto Jhon

Full Stack Developer | Information Systems Engineering Student

📍 Ciudadela, Buenos Aires Province    ✉️ jhonaaroa@gmail.com    ☎️ 011 3470-2294    🌐 jhndbr

## Professional Profile

Engineer with hands-on experience in operating systems and a solid focus on problem-solving. I have the ability to easily integrate into work teams and a strong commitment to meeting deadlines. My technical knowledge and evolution as a developer are reflected in my GitHub projects. I am passionate about logical challenges and mathematics.

## Technical Stack

**Backend:** Java, Spring Boot, Laravel y Python

**Frontend:** HTML, CSS y JavaScript

**Bases de Datos:** MySQL

**Infraestructura y DevOps:** Linux, Docker, CI/CD (Jenkins), Kubernetes y Ansible

**Herramientas de Análisis:** Conda y Jupyter Notebook

## Work Experience

- |                                                                                                   |                     |
|---------------------------------------------------------------------------------------------------|---------------------|
| <b>Freelance</b> , IT Technician                                                                  | 2023 – present      |
